

# Minutes openMDM SC Call 26.04.2023

## Attendees:

- Angelika Wittek (Toolkit Manager)
- Hans-Jörg Kremer (Peak Solution)
- Hans-Dirk Walter (Karakun)
- Ulrich Bleicher (BMW)
- Gert Sablon (Siemens)
- Stefan Wartini (Müller BBM)

## Agenda

### Anti Trust Policy Notice

- [https://www.eclipse.org/org/documents/Eclipse\\_Antitrust\\_Policy.pdf](https://www.eclipse.org/org/documents/Eclipse_Antitrust_Policy.pdf)

### Meeting Minutes

- Hans-Dirk

### BudgetPlan 2023 - status contracts / SOWs

- Contracts done

### Planning openMDM Summit 2023

- Confirmations from Skoda, BMW, Siemens, Karakun, Peak Solution, openMDM (Angelika)
- Potential dates
  - 28. Juni / 29. Juni
  - 5. Juli / 6. Juli

### Status „openMDM as ASAM Standard“:

- ASAM ODS Proposal Workshop, 25. May: Hans-Jörg Kremer, Matthias Koller, Hans-Beckers, Stefan Wartini, Hans-Dirk Walter will attend
- Scope of standardization Model alone or model + API!
  - Candidates for standardization are:
    - Rest API (for applications / clients)
    - Adapter API (today Corba) for connecting openMDM to a backend storage system / ODS server
  - Disadvantages of a standardization of the API: less flexibility and additional overhead for versioning and ensuring backward compatibility
  - Concern: Current state of API might not be mature enough for a standardization
  - We will invite Matthias Koller to ask him about some facts regarding past development of the openMDM API like how many breaking API changes have been implemented in the past and to learn his opinion about the topic.
- The attendees confirmed again that the openMDM WG will contribute up to 70 person days for writing up the required standard documents. We believe it was confirmed by Mr. Bartz that this would be OK for him to contribute what cannot be covered by this.

### Use of ASAM ODS 6.x

- Uli asked Ben Engels from ASAM - feedback expected until next SC call.

### Eclipse Wiki

- The Eclipse Foundation has a MediaWiki instance([wiki.eclipse.org](http://wiki.eclipse.org)), and is proposing to deprecate this service in January 2024, and ultimately remove it in April 2026 [2], [3]
- openMDM Wiki page must be migrated to another place.
- Options:
  - use current openMDM web page which would lead to a more complex publishing process.
  - use Gitlab Wiki
- No immediate action required. Angelika will discuss with other automotive projects possible solutions.

### Next SC calls

- 17.05.2023 15.30 ⚠

- 14.06.2023 15.00
