## Contributors and Their Contributions

Ref	Size	Description
Justin Spadea (us.ibm.com)		
227752	3382	Core changes are needed for the builder

357733	bytes	Patch with the changes mentioned in the summary.
Yun Feng Ma (cn.ibm.com)		
346269	8023 bytes	Add refactor participant for project-level settings Patch
353873	12317 bytes	Update usage of Locale information in HTML file names Patch
355020	6665 bytes	User should be able to select Mozilla browser for use with Visual Editor Patch
356147	3381 bytes	Wrong code generated for EGLProperty in eze\$\$getChildVariables Patch
356153	5349 bytes	The default RUI handler created by RUIHandler creation wizard cannot be displayed in the VE Patch
356165	937 bytes	Record needs instance the library in "constructor" in the generated javascript Patch
356166	971 bytes	Function "notEquals" is missed in type NullType Patch
356434	1836 bytes	Callback method in generated javascript should be wrapped with Delegate Patch
356499	1662 bytes	Some methods in EGLProjectInfoUtility need to be removed Change for Deployment part
356531	2664 bytes	Format in EGL Editor moves all lines to column 1 Patch
356843	2077 bytes	Submenus missing from context menu of EGL editor Path
357723	19664 bytes	Deployment does not support multiple generation directory. Patch
357904	1058	Exception occurs when use format in EGL Editor on Linux

357304	bytes	Patch
358379	2918 bytes	XULRunner setting should be disabled in linux Patch
359508	4398 bytes	Performance issue when dragging a new type of widget to the VE Patch
Zhi Zhu (cn.ibm.com)		
347065	12718 bytes	port EGLAR support code from RBD 8012 to EDT Implementation for EGLAR Import and Export
348397	6257 bytes	Update error message when generator tab selection changes Code fix for the bug
352754	117588 bytes	Add new service wizard code for interface and service wizard creation
353971	40551 bytes	Create record from XSD schema Code for Record Creation Wizard
354208	143853 bytes	Wizard for Extracting EGL Interface from EGL service code after plug-in refactoring
354308	6596 bytes	Remove "Create as called program" from New EGL Program wizard fix for this bug
354921	2887 bytes	When removing service egl file, item for the service from DD editor is not removed Code fix for the bug
354990	1980 bytes	Default folder names for EGLSource and EGLBin in EDT Code fix for the bug
355198	4850 bytes	EDT Compiler Preference, show generator without hierarchy Implementation for this feature based on design
355909	110755 bytes	Create SQL Preference Page Implementation for this feature
356155	21929 bytes	Add SQL Database Binding Wizard Check in code
45065		New Project Property - Default EGL DD

<b>356156</b>	45065 bytes	New Project Property - Default EGLDD new plug in for sql
<b>356160</b>	175961 bytes	UI changes to generalize EGLDD Editor Services Binding tab to Resource Binding minor changes
<b>356174</b>	45065 bytes	EGL SQL Errors view new plug in for sql
<b>356294</b>	1992 bytes	Add default DD path value to file under .setting folder of a project when creating project Complete the feature
xiao bin chen (cn.ibm.com)		
<b>348207</b>	968815 bytes	Add content assist support patch for content assist
<b>350647</b>	27710 bytes	Implement Source Editor Ruler actions patch for task/bookmark/folding function in edt
<b>351925</b>	140229 bytes	Add Quick Fix functions to EGL editor Patch for quick fix
<b>352816</b>	1373 bytes	Add open part function This is the patch for open part in EDT
<b>355413</b>	1459 bytes	Auto activation delay problems in EGL>Preferences>Content Assist Patch for ca preference page.
<b>355422</b>	2938 bytes	Content assist doesn't list array functions Add current array function to edt proposal.
<b>355574</b>	153359 bytes	System libraries not in content assist eglar file
<b>355677</b>	1759 bytes	EDT quick fix can't show when you put the cursor in the error text Adding check for cursor position in error text
<b>356015</b>	2276 bytes	EGL Code formatter preview - lines not wrapping / source is invalid Delete all no support part and statement
<b>356020</b>	26600	Default SQL Generation for ADD,GET,REPLACE,DELETE SQL statement actions

<b>356050</b>	bytes	Statement actions Framework support for sql edit
<b>356056</b>	8265 bytes	EDT does not support DataTable and Dataltem, remove them from Constant Assist comment un-support key word
<b>356059</b>	1538 bytes	externalType does prompt properties in Constant Assist Extenal type part level parameter
<b>356139</b>	5525 bytes	Content Assist additional information is mess. patch for additonal information
<b>356148</b>	1787 bytes	Can NOT prompt AnyException when Constant Assist in try statement add anyexception to the exception proposals.
<b>356154</b>	3953 bytes	Missed menu for content assistant when right clicking in the EGL source file editor add context menu for content assist
<b>356168</b>	13411 bytes	Remove the un-support primitive type in Constant Assist comment unsupported primitive data type
<b>356532</b>	4863 bytes	Additions to context menu in EGL Editor add context menu
<b>356839</b>	3606 bytes	Toggle Comment broken patch for toggle comment
<b>356847</b>	1531 bytes	Preferences in EGL Editor opens to general text editor page rather than EGL editor page patch for egl editro context menu preference item
<b>356877</b>	10084 bytes	[RBD] Type dot (.) in the string should not display content assistant StringLiteral dot invoke content assist
<b>357141</b>	1822 bytes	Content assist places cursor inside parens for built-in functions Patch for System words postions
<b>357148</b>	13149 bytes	Content assist not display initialUI as a choice patch for super type field and function
<b>357444</b>	1383 bytes	Reword the warning in New Source Folder wizard patch for new source folder wizard

<b>357454</b>	99099 bytes	Clear CA code for EDT patch for clear cA
<b>357725</b>	1334 bytes	@Resource annotation does not appear in content assist Change service prototype string
<b>357907</b>	163670 bytes	Content Assist enhancement for edt sql statment Patch for SQL Content Assist
<b>358184</b>	11619 bytes	Organize import function does not work in the source pane of visual editor patch for organize import
<b>358322</b>	32037 bytes	The IDE is blocking when creating the parts and active jobs running Enable progress dialog to show.
<b>358364</b>	20407 bytes	Quick Assistance Cursor problem Patch for cusor
<b>358680</b>	1153 bytes	Content Assist does NOT prompt string variable for "prepare" enable prepare to use with_str
<b>359002</b>	985 bytes	Redo menu is not displayed right click menu of editor (including source editor of VE) add redo context menu
<b>360336</b>	2309 bytes	Content Assist does not give help on @Dedicated service annotation Patch for service annotation
Huang Ji Yong (cn.ibm.com)		
<b>351279</b>	34811 bytes	Runtime Widget Project, EGL & Dojo Change WidgetLibraryProvider extension point, add more attributes; Change library selection page from list view to table view
<b>352764</b>	42087 bytes	Add widget library page to new project wizard 1. Add widget library selection page to the new project wizard 2. Add an extension point to add new widget library to the wizard.
<b>354426</b>	6747 bytes	Support creation of generic EGL projects using concept of a project template 2 Updates: Remember Base Package name; Move Base package field before project location (comment 11)

<b>354980</b>	8726 bytes	[EDT test framework] Get an exception when select Generate EGL Test Driver-> Java Modify the EGLWizardUtility to use the project template
jinfahua (cn.ibm.com)		
<b>352643</b>	27192 bytes	[EDT test framework] - When generating test drivers from IDE, it should have a cancelable progress monitor Added the progress bar when generating the test drivers.
<b>354203</b>	2481 bytes	[EDT test framework] - When parsing test result, it should not crash if user does not have birt chart engine feature installed The patch for telling user the BIRT engine could not be found.
Huo Zhen Zhong (cn.ibm.com)		
<b>352757</b>	49605 bytes	Add RUI Visual Editor patch for VE
<b>355962</b>	23210 bytes	EGL actions not enabled in visual editor source tab fix
<b>356039</b>	3331 bytes	VE prints 'document.write("could not open %handler_name%");' when opening the RUI handlers fix for file locator
<b>356702</b>	5093 bytes	The data item should not be displayed in 'EGL Rich UI Data Wizard' fix
<b>356703</b>	647 bytes	Partial of button can be selected in VE fix
<b>356704</b>	9043 bytes	Auto open suitable editor fix
<b>357430</b>	1408 bytes	VE can not show widget even by default RuiHandler created by wizard fix
<b>358040</b>	1614 bytes	The any array type should not be displayed in the EGL Data view fix
<b>358190</b>	2785 bytes	Controller is not generated fix2

<b>358359</b>	4000 bytes	The code generated by Data view cannot be displayed in the VE fix
<b>358719</b>	1135 bytes	PartNotFoundException thrown from WidgetDescriptorFactory fix
<b>358851</b>	1037 bytes	The external type widgets can be neither selected in VE nor displayed in outline view fix
<b>359171</b>	1194 bytes	No data widget show in the wizard when drag&drop an int type from EGL data view fix
<b>359180</b>	1418 bytes	VE server cannot load the js files of Dojo Charting theme fix
<b>359354</b>	32411 bytes	HTML Error Generator is missed fix
<b>359468</b>	3714 bytes	Most properties are missing for Dojo widgets in the Properties view of the RUI editor fix
<b>359775</b>	2324 bytes	EGL Data view's insert data wizards needs to clean up the dataType list another new fix
<b>360310</b>	6038 bytes	The EGL source code generated by new variable wizard (EGL data view) has syntax errors fix
<b>360337</b>	19783 bytes	Input invalid characters/reserved words in the field name of new EGL variable wizard does not prompt error message fix
<b>360373</b>	2928 bytes	RuiHandler opened in source editor by default when creating fix
<b>360390</b>	3330 bytes	Combo can not add values via properties view fix
<b>360759</b>	1876 bytes	Properties - "selection" of ListMulti will introduce egl error fix

<b>360918</b>	4676 bytes	[RBD] Properties - properties changes don't reflect in Design view fix for div condition
<b>361340</b>	748 bytes	refresh and show in web browser is gray in preview fix
<b>362159</b>	1850 bytes	Delete the widget from outline view with MVC code in EGL produces compilation error fix
Song Fan (cn.ibm.com)		
<b>357590</b>	3011 bytes	When create new project both the 'select All' and 'deselect all' button are disable for EGL Build Path setting New Fix patch(merged with patch of other defects)
<b>357729</b>	15970 bytes	New project wizard setting impact preference setting fix patch
<b>358070</b>	1157 bytes	New EGL Handler: Error message for Source Folder is not correct Version 2
<b>358304</b>	1612 bytes	Javascript development mode generator is not created when creating EGL basic project Patch
<b>358849</b>	2727 bytes	New Project Wizard: User could click Next button even if not setting project location Fix patch
<b>358997</b>	6766 bytes	New Project Wizard: Next button is NOT disabled if user does not select any default generators Fix pack for 358997 and 359004
<b>359004</b>	3065 bytes	New Project Wizard: There is no validator on default generation folder input text field Fix patch
<b>359010</b>	3011 bytes	New Project Wizard: Select All and Deselect All for Order and Export tab should not be enabled if no other projects marked in build path New Fix patch(merged with patch of other defects)
	3011 bytes	New Project Wizard: The default item for the new project in Order and

<b>359012</b>	5011 bytes	Export tab should be shown as disabled New Fix patch(merged with patch of other defects)
<b>359768</b>	1037 bytes	Standard widgets in project wizard confusing Fix Patch
<b>360561</b>	7023 bytes	Creating new RUIHandler opens with EGL Editor rather than RUI Editor Patch Version 2
<b>360608</b>	867 bytes	New Project Wizard: Next and Finish button are not disabled after user inputs an invalid space as Base package name Patch to fix this defect
<b>363333</b>	947 bytes	EGL Project wizard doesn't go away on Finish creating a new Basic project patch
<b>363550</b>	1193 bytes	User is allowed to finish New Handler wizard with empty name PI
broy2@us.ibm.com		
<b>362691</b>	27 bytes	APAR - PM50017 needs fixing in EDT as well as RBD comment #2
